

# ARAI, ANSYS SIGN MoU FOR RESEARCH IN EMERGING AUTOMOTIVE TECHNOLOGIES

L-R: Ujjwala S. Karle, General Manager, ARAI; Mangesh R. Saraf, Senior Deputy Director, ARAI; Rashmi Urdhwareshe, Director, ARAI; Rafiq Somani, Area Vice President, ANSYS; Murali P., Director of Sales, ANSYS.

The Automotive Research Association of India (ARAI) & ANSYS have signed a Memorandum of Understanding (MoU) and set up a Centre of Excellence (CoE) at ARAI Kothrud, Pune.

The CoE will support the development of innovations in emerging automotive areas such as Electric and Hybrid Vehicles, Energy Storage System, Advanced Driver Assistance System (ADAS) and Autonomous Vehicle.

This CoE will focus on the innovation of mobility and safety systems, to begin with, for intelligent vehicles which will facilitate localization of development and manufacturing.

The CoE will work on common interest of both the parties in a non-commercial manner. The R&D activities that will be carried out are expected to benefit the entire automotive industry at large.
